

Montrose Fire Protection District

441 South Uncompahgre Ave., Montrose, CO 81401 | (970) 249-9181

Serving Montrose since 1888

September 9, 2010

To Whom It May Concern:

The Montrose Fire Protection District has purchased the Ram Air gear dryer. We purchased the model that dries 6 sets of gear. The first time we used it six sets of structural bunker gear were dry in two hours. We are now able to wash our gear and get it back in service within 2 hours and 45 minutes from the start of the wash cycle.

We are very pleased with this machine and highly recommend it. Anyone is welcome to call or come see the Ram Air gear dryer.

Sincerely,

Bob Pistor
Chief
